

Dangerous Dinosaurs

This project teaches children about the different animals including dinosaurs that lived on Earth million years ago. Children will be exploring volcanoes and making their own dinosaur fossil.

The children will also look at weather. They will be comparing the differences and finding the similarities between the seasons.

How are fossils formed?

How many different dinosaurs are there?

What seasons do you need to wear a sun hat and suncream?

Recommended reads:

- Cave Baby
- Tyrannosaurus drip
- Dinosaur Roar!
- Colour Monster
- A windy day in spring

Useful Words

Carnivore	Season
Crocodile	Spring
Dinosaur	Rainbow
Diplodocus	Rain
Extinct	Puddles
Fossil	Wind
Reptile	Cloud
Stegosaurus	Hail
triceratops	Sun

Supporting your child at home

- Go onto the Natural History Museum website and look at interesting facts about dinosaurs together.
- Go on a rainy puddle walk.
